Lapland is Europe's last wilderness, a true paradise for fishermen, and still only a few hours away. Lapland offers many opportunities for great fishing adventures, both with the fly and with lure.

The area by Rajamaa is dominated by the mighty **River Muonio**, with its smaller side streams, all possible to wade in the summer. This is the home-land of the **Arctic Grayling**, the "Lady of the stream".

The area has many lakes that hold a lot of **pike** and **perch**. Some lakes are better fished from the shore, some from boat. This fishing can be done both with fly and with lure.

Fly fishermen from many countries come to experience these beautiful wild fishes of the north. The fishing can be done around the clock, as the **Midnight Sun** will never set.

Rajamaa arranges high quality, full-package fishing adventures, always with professional guiding. This will guarantee our guests a great time in Lapland, where **Catch & Release**, with barbless single hook is a natural thing.

Grayling fishing w.25 – w.36
Pike fishing w.25 – w.39

Included in package:

Transfer from/to Rovaniemi/Kittilä airport.
